

# Modernize Microsoft Workloads on AWS and **Unlock Innovation**

Organizations are migrating to transform business in the cloud

**57%**

of IT decision-makers are accelerating cloud migration

<https://www.auvik.com/franklyit/blog/cloud-migration-statistics/>

**Modernizing** Microsoft workloads on Amazon Web Services (AWS) can help your organization to

Unlock innovation

Optimize licenses

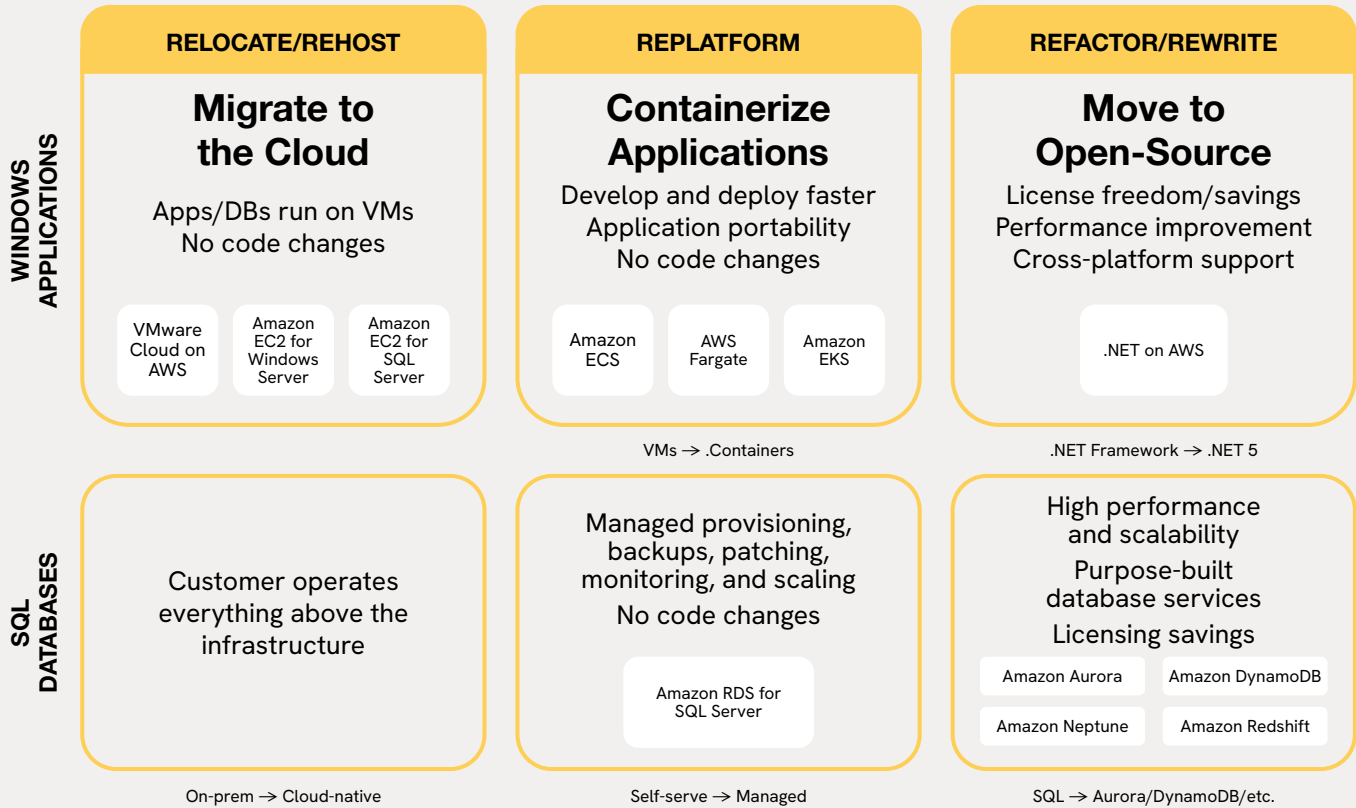

Harden security

Lower costs

## Customize your pathway to **modernization**.

No matter where you are in your modernization journey, AWS can help transform your existing applications and infrastructure to extend into cloud-native services.

## Discover the benefits of modernizing Microsoft Workloads

As an AWS Premier Tier Services and Migration Competency Partner, Mission has the expertise to help you successfully migrate to AWS. We use AWS Migration Readiness Assessment (MRA) and migration best practices to help you identify, plan for and address financial, technological and operational challenges that come with a migration. **Start your assessment** →

aws marketplace

Mission, a CDW Company, is a leading born-in-the-cloud managed services, consulting provider, and AWS Premier Tier Partner. As a trusted AWS partner, we help businesses who want to migrate, manage, modernize, and optimize their cloud environments, and build new applications with emerging technologies like generative AI.
